

<u>First</u>	<u>Last</u>	<u>SH District</u>	<u>Party</u>	<u>No's</u>	<u>Comments</u>
Audrey	Asciutto	55	Dem	n/a 5	5 - I prefer to see this issue as an amendment on the ballot for for Florida voters to decide
Laurel	Bennett	86	Rep	5	1- I support solar and hydrogen fuel cells and will legislate said that FPL cannot charge to connect to their grid. 6- as long as they make restitution and only get one chance of keeping their voting rights
Cynthia	Brown	32	Dem		1- tax incentives for solar power companies would help reduce cost and facilitate more people using solar.
Liv	Coleman	73	Dem		1- deregulation and make it easier to sell power and to buy power.
Vikki	Garrett	1	Dem		1- I support current Florida statutes 288.041 and 288.0415.
Nicole	Haagenson	54	Dem		1- the ability to sell back solar electricity to the utility.
Jason Lee	Haeseler	21	Dem	5	1- I do not have specific legislation, but I am generally supportive of expanded solar energy production .5- require a concealed carry permit for the purchase of or possession of semi- automatic rifle. This will ensure that the owners are over the age of 21, they have passed criminal background checks including fingerprinting, and have taken fire arms training. Very few semi automatic rifles are used in the commission of crimes and very few gun crimes are committed by people with concealed carry permit.
Jessica	Harrington	64	Dem		1 - any legislation that gives Floridian the right to solar alternatives and to sell back energy into the grid.
David	Hayes	38	Ind		1- tax and permit fee reduction's for installations. 5- I am pro gun control. Assault weapons ban may be hard to find but generally yes.
Alex	Heeren	66	Dem		1- reform the public service commission.
Delores	Johnson Hogan	84	Dem		1- legislation that would support small businesses that would lead to greater usage of solar energy.
Colleen	Kasperek	35	Dem		1- Solar on all new government buildings and when numerous are installed. State funded tax credit for real estate taxes for solar installations.
Rebecca	Koelzer	4	Dem		1- Solar power, water heaters, and solar grid.
Chip	LaMarca	93	Rep	5	1- legislation that allows full access to all. Also I have voted for a ban on fracking as a Broward county commissioner. 3 - we voted for and started a veterans Court in Broward County.
Sally	Laufer	65	Dem		1- tax credit to encourage people to make the investment.

Lee	Mangold	28	Dem		1- increase R&D and solar incentive programs
Ralph	Massullo Jr.	34	Rep	5	
Tony	Mowry	74	Dem		
Ken	Organes	16	Dem		1- allow homeowners to sign over government subsidy to contractor or to have panels installed at no cost. Allow commercial and residential property owners to sell solar power to tenets. Allows citizens to sell power back with no price differential.
Tracy	Pratt	71	Dem		1- support third-party owned solar agreement, tax incentives.
Jeffrey	Solomon	115	Dem		1- I support a homeowners or businesses right to produce and sell solar energy.
Paul	Still	19			1 - program to fund solar installation on state own buildings and land. 1B - I am concerned giving the change in the courts that Frak Ing bans could result in a ruling by the courts that the state would have to compensate oil and gas lease holder's. I favor the regulatory control of racking to protect water and environment.
Kathleen	Tripp	25	Dem		1- incentives, rebates, tax credit. I would also like to increase production of solar components in the state.
	Unknown			2,5,6	1- Kohler for emergency services. 5- difficult to implement.
	Unknown				1- expand solar in public building projects and sell excess energy
Joe	Wicker	59	Rep		5 - assault weapons have been illegal for civilian use without a federal tax stamp since 1935 and 1986
First	Last	SS District	Party	No's	
Mary Jeanr	Gibson	2	Dem		1- tax incentives.
Gary	McKechnie	12	Dem		1-Laws to encourage the purchase and use of solar panels at the Home level.
Amanda	Murphy	16	Dem		1- allow consumers to buy electricity from non-utilities.
Kathleen	Passidomo	28			no via email
Faith Olivia	Babis	23	Dem		1- I support tax credits that help lower the costs associated with installing solar panels for businesses and individuals. I also support policies that allow homeowners to sell energy back to power companies.
First	Last	US Dist	Party	No's	

Dana	Cottrell	11	Dem		1- expanded use of solar power on personal homes to offset electric costs with improvements to use stored energy when the sun goes down. 2 - congressional reform and an amendment process as the current supreme court will not overturn it another similar case is brought to the courts.
Charlie	Crist	13			1- Florida is the sunshine State. Makes no sense that we wouldn't want to take advantage of our most plenty for resource. I support extending the solar tax credit, expanding accessibility a rooftop solar, and making carbon polluters pay.2 fed- I support constitutional amendment to overturn citizens United. Representative should be accountable to the people – not wealthy donors and corporation.
Yvonne	Hayes Hinson	3	Dem	5 fed	1- by offering inverters, rebates, and loans. 2- by sponsoring legislation such as the BCRA of 2002.
Debbie	Mucarsel-Powell	26	Dem	5 fed	1- we are the sunshine State. We should absolutely invest in clean, renewable energy sources, including solar, and create good paying jobs while we do it. 2- I supported constitutional amendment overturning citizens United.
Sanjay	Patel	8	Dem		1- low income solar act of 2015.
George	Selmont	4	Dem	5 fed	1- incentives and protection of leasehold property rights and manufacturing to increase domestic production. 2- a constitutional amendment.
David	Shapiro	16	Dem		1- I would support legislation continually tax credit and requirements that the solar panels be made in the US.
Jennifer	Zimmerman	1	Dem	5 fed	1- I would like to maintain the federal solar tax credit at 30% for both residential and commercial properties. 2- Corporation should not be able to control the outcome of politics the of the financial hold they have over the politicians. I am initiating and supporting amendments that will override citizens United decision.
